**Métis Addictions
Council of
Saskatchewan Inc.**

A New Beginning

**Supporting recovery for
Métis, First Nations and
Non Aboriginal people
seeking safer, healthier
lives free of the harmful
effects of substance
addictions.**

Our VISION for Addictions in Saskatchewan

Métis Addictions Council of Saskatchewan Inc. (MACSI) has supported recovery for the people of our province since 1969. Substance addictions continue to be a complex and serious issue. Families and communities are touched each day by the harmful effects of substance use and addictions.

MACSI Core Office is in Saskatoon and our three treatment centres are located in Saskatoon, Prince Albert and Regina. Together the MACSI team works toward our vision; we value our Métis heritage, embrace our future and envision a world for all people free of the harmful effects of addictions.

MACSI's mission is to empower individuals to make healthy choices in our communities through a continuum of addictions services, including education, treatment and aftercare to restore a balanced, harmonious, productive lifestyle.

Programs AND Services

MACSI's programs are informed by Métis heritage, traditional Aboriginal teachings, the 12 step recovery model, Saskatchewan's Clinical Principles for Alcohol and Drug Services, research and emerging trends in the field of addictions.

Programs are holistic and designed to support Métis, First Nations and Non Aboriginal people who are seeking recovery and healing. MACSI offers individualized treatment, hope and empowerment through Inpatient Treatment, Outpatient Services, drop-in Day Program and community Field Services for youth and adults.

Counsellors at each centre will work to find the service and support that fits best for you or your family.

MACSI's Guiding Values

Client-Centred Practice—We put the client at the centre of what we do.

Family Sensitive—We recognize the needs of families and their critical role in supporting people with mental health and addictions problems.

Holistic View of Health—We believe in understanding and helping the whole person in ways that are holistic and focused on recovery.

Respect—We believe that treating people with respect is a key guiding principle for any effective and healthy organization.

Continuous Learning—We foster creativity, discovery, learning and sharing of ideas.

Partnership—We build respectful, collaborative and effective partnerships.

Evaluation and Accountability—We will improve, monitor and evaluate our services. We will be accountable to our stakeholders.
